SPRING 1985

From 1953 until 1974 you had seen my fixed price lists-monthly, quarterly, or as feasible by our material on hand. Auctions were once or twice a year. My late husband, David M. Bullowa, more ambitiously tackled 2 to 3 auctions per year and a monthly list! After his untimely death in September 1953, I tried to carry on and get my feet wet and used to what numismatics entailed and "was all about", as they say.

About March 1974 the market took a big rise in the gold prices-although we delivered our coins as per that Spring List, we could have just said "sold". We didn't, as I felt it was a dishonest way to handle a first class business. However, I felt the market was becoming much too volatile to risk further fixed lists! We then tried to concentrate on one or 2 auctions per year.

Now, as I'm in my 33rd year, I'm changing in my viewpoint again. I'll put out a fixed list of items from our own stock as well as some significant consigned pieces. If an auction is warranted for our consignor customers, we'll hold an auction in the Fall. It is anyone's guess if business will go up or down but I feel I would prefer to continue the Bullowa tradition.

We also do over-the-counter selling and buying from Suite 2112. Please telephone ahead to make sure we are available for an appointment.

Let me just take you back a few years to a few typical prices: In 1929 B. Max Mehl had a fixed price list "price ten cents" with U.S. Trade Dollars 1879 through 1883 Proof 2.50 each; Pine Tree Shilling 1652 Good condition 17.50, Oak Tree Shilling 1652 Good condition 18.00, Lafayette Dollar 1900 3.95, 1922 Grant gold dollar \$5.00. In David Bullowa's June 12-13, 1953 Auction sale, 2 records were established: Lot 1503, the \$4. Stella of 1879 Perfect Brilliant Proof, brought \$615.00. Lot 42 and 981, two 1856 Flying Eagle Cents Uncirculated brought 185.00 and 200.00 respectively. Then the Lot 756 NE Shilling (1652) V.G. also went for a modest sum. Our Fixed Price List July-August 1953 offered a \$20 Uncirculated High Relief for \$120.00, a \$10 1799 at 90.00, \$5 1803/2 EF at 50.00, \$3 1888 Unc. 25.00, 20¢ 1875 Proof 14.50 and so it goes. Jan. 1954 Numismatist showed R. Green willing to buy the Grant plain 1922 Gold dollar at 35.00 and 22.50 for the star variety. Hawaii 50¢ 1928 retailed 63.50.

We must now come back down to earth and see the inflated prices or the realities of today in our listing.

As in the past my husband, Earl Moore, and I will look forward to meeting you and reuniting with our longtime numismatic friends at Conventions!

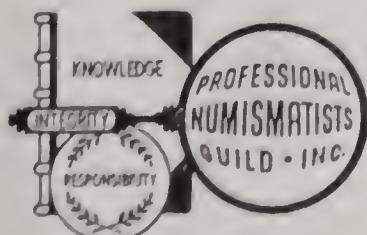

Either way, happy COINHUNTING!

Professionally yours,

C. E. Bullowa

HELLENISTIC INFLUENCE ON THE COINS OF ANCIENT INDIA
Submitted by W.F. Spengler

In the 6th-4th Centuries B.C. the northwestern parts of ancient India comprised satrapies (provinces) of the dominant Achaemenid Persian Empire and used silver coins of Indian fabric but struck on the Persian weight standard. With the invasion of Alexander the Great of Macedon 331-325 B.C., Greek influence was brought to bear on the coinage of Persia and Northwest India. Alexander left governors and garrisons to maintain Greek control, but by 256 B.C. they revolted and became independent of the Seleucid Empire to the west. At first confined to Bactria in northern Afghanistan, these Greeks soon extended their power south of the Hindu Kush range, assimilated with Indian culture, and became "Indo-Greeks", by 170 B.C. Indo-Greek authority was overcome by Scythian invaders from the north around 55 B.C. and a succession of Scythic Kings ruled the area until the Kushan Empire was established around 50 A.D. Embracing Indian culture and religion, the Kushans built a glorious civilization in northern India which flourished for two centuries and was epitomized by magnificent gold coins manifesting various religious motifs. The Indo-Scythians and Kushans continued to employ Greek on their coin legends. The indigenous Gupta Empire succeeded the Kushans.
